Director of Official Representation of the Czech Republic:
Ladislav Dvořák

Presentation of the Ministry of Industry and Trade of the Czech Republic:

The stand of the Ministry of Industry and Trade of the Czech Republic serves as an important information center at the fair. Representatives of the Ministry will provide information of the economic and general nature, as well as expert information on the sectors of industry, trading, culture and tourism. Furthermore, it will be a chance for establishing new business contacts through a computer database and promotional materials distributed during the fair.

CzechTrade is a non-profit organization of the Czech Ministry of Industry and Trade that focuses on prompting international trade and industrial co-operation. CzechTrade is a member of the European Trade Promotion Organization (ETPO). CzechTrade provides services similar to those provided by government agencies of the EU countries. These services aim at assisting Czech exporters as well as foreign companies that are interested in establishing business contract in the Czech Republic, obtaining more information about the country, or that seek Czech suppliers of various products. CzechTrade provides all these services to foreign organizations free of charge. CzechTrade is a modern organization and a broad range of information can be found on www.czechtrade.cz. Requests for Czech suppliers of high quality products are processed by www.supplier.cz.

CzechInvest

Štěpánská 15
CZ - 120 00 Praha 2

Founded in 1992 by the Ministry of Industry and Trade, CzechInvest is the national investment promotion agency of the Czech Republic. Our task is to support new incoming foreign manufacturing investors as well as foreign-backed manufactures already established in the Czech Republic through a range of services that are provided free of charge:

- advice and handling of applications for investment incentives
- location evaluation information
- aid with finding greenfields sites and production facilities
- assistance in finding local supplies and joint-venture partners
- organizational aid and execution of visit programmes

E-mail: p.sindelarova@spm-liberec.com

Line of business: Our company is manufacturing top quality sewn products for Army and Police of the Czech Republic. Special "Modular Load-Carrying System" (MNS-2000) was developed for professional soldiers as a part of the "Field Equipment Concept" project. The system is intended to be used by all Armed forces career soldiers from members of ground forces, reconnaissance group members, military police up to paratrooper and special units. It was successfully tested in combat conditions including Bosnia, Kosovo, Macedonia, Kuwait and Afghanistan missions as well as at joint exercises with NATO member countries (USA, GB, GER). The system's variability allows for individual adjustments to a specific field assignment. The system is manufactured in one size, which can be adapted to the user's needs by length-adjustable straps. The system is compatible with the equipment of NATO allied forces.
